LIVE LEGENDARY

LEGENDS CREATE HISTORY

For 80 years the Jeep® Brand has been historically linked to freedom, adventure, authenticity and passion. These core values are embodied in the DNA of every Jeep® vehicle. For Jeep® owners, 'Go anywhere, do anything' is not just a slogan, but a way of life.

The name Jeep® stands for more than just an automobile brand. It's a badge of honour loved by a growing global community who live the Jeep® life every day.

THE ORIGINAL
— SINCE —
1941

A LEGENDARY FIRST IMPRESSION

Legends are driven not to just win but to change the game. The New Jeep[®] Compass does the same, taking the SUV experience to a whole new level with class-leading comfort and capability that lets you go further than ever before. Drive into the future with cutting-edge features and connectivity. It's time to go beyond the ordinary.

It's time to live legendary.

PREMIUM INTERIORS

All-black interior with contrast stitching OR Tan + black combination

The available upholstery options elevate the premium ambience of the SUV and make every ride feel legendary.

Wireless charging

Convenient charging on the go. Forget those charging cables and don't worry about losing touch ever again.

8-way power-adjustable front seats with driver memory function

Ergonomically designed seats for drives in the city and adventures into the unknown. The driver and passenger seats can be adjusted electronically in 8 ways and the driver's seat can save up to 2 seating positions.

Ventilated plush leather seats

Ventilated seats provide optimal comfort, keeping you cool and at ease even on the longest of journeys.

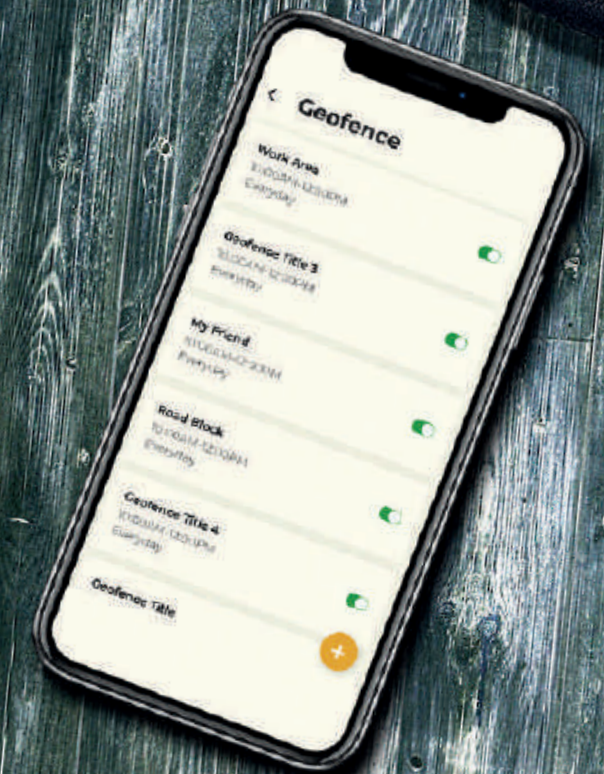

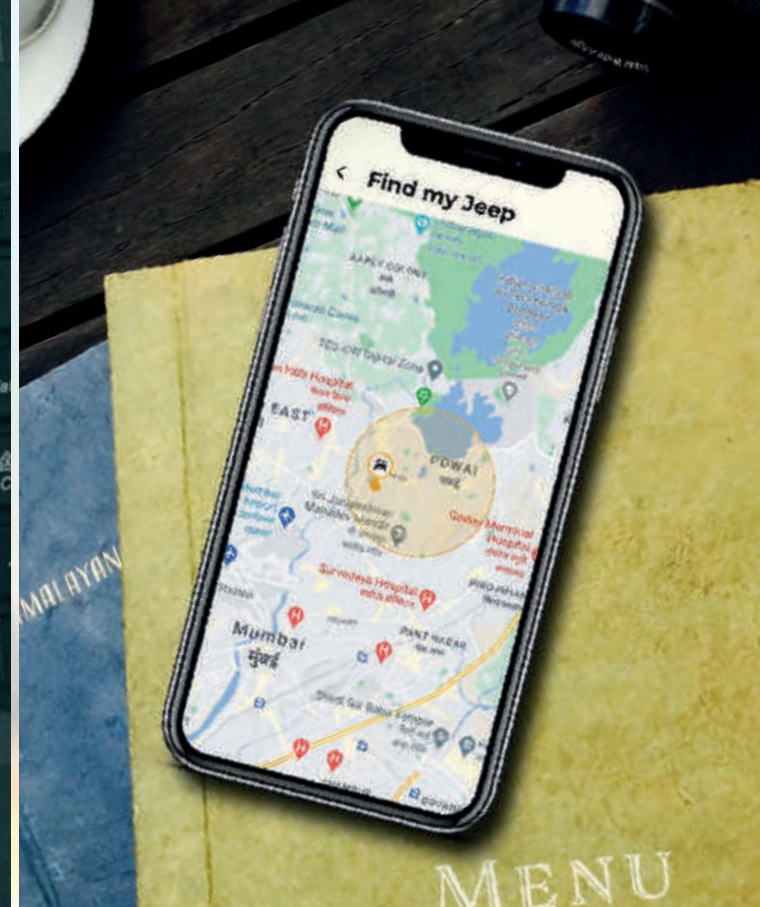

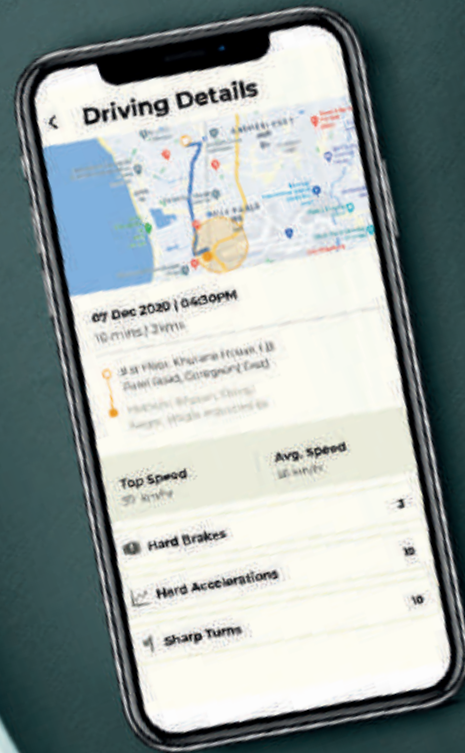

25.6cm (10.1) Uconnect™ Infotainment System

Jeep's Uconnect™ infotainment system offers entertainment and communication services on 25.6 cm(10.1) touchscreen. Make the most of advanced features through wireless Apple CarPlay and Android Auto that seamlessly connects your phone to your Compass. The high definition touchscreen displays real-time data and keeps a variety of entertainment and navigation apps at your fingertips.

Integrated voice command with Bluetooth®

Uconnect™ technology takes a leap forward with a more interactive interface. It gives you an option of voice command to control air flow in your ventilated seats, operate the infotainment system, and much more.

Vehicle health status

You can monitor everything about the key health indicators of your Jeep. Compass, right from the battery voltage to the coolant temperature, all wirelessly, through your smartphone.

Driver analytics

Gives you a whole array of data, like information about hard stops, sharp turns, and sudden accelerations, letting you take precautions to avoid misuse or accidents. It even provides a weekly driver score to help improve your driving.

Location services

Always know the whereabouts of your Jeep. Compass with live GPS tracking and get notified if it crosses a certain point. Your Compass never leaves your sight.

Detailed trip analytics

Get a detailed analysis of your trips- the distance you covered, the route taken, the fuel efficiency, the time taken and much more to keep track of all your adventures.

Safety services with Stolen Vehicle Assist

With just one phone call, you can disable your Jeep. Compass remotely, stopping any would-be thieves in their tracks.

Cruise Control with speed limiter

While cruise control enables you to enjoy your long drive with ease, the speed limiter function works as an added safety feature. Set a speed limit to ensure you keep your SUV's speed under control, to keep you and your family safe. Enjoy the confidence of safety and keep drive fatigue low.

Smart storage space

The configurable interior of the Jeep® Compass is designed to provide ample space for your daily drives as well as for long distance trips.

Power lift gate

The new powered lift gate lets you open and shut the lift gate at the press of a button. Control it from 3 touchpoints- the key fob, the driver's seat, and the boot.

60/40 split-folding rear seats

Configure your interior to fit your needs- rearrange by flipping either or both sections of the 60/40 split and leave the remaining section up for passenger use as and when needed.

Tyre pressure monitoring system

Never be caught off-guard with low tyre pressure, thanks to the new tyre pressure monitoring system. It also adds to your safety, by pointing out whenever a tyre falls below the recommended pressure.

Engine stop-start system

The intelligent stop-start system helps reduce CO emissions and improves efficiency by using sophisticated controls to reduce fuel flow and turns off the engine when the vehicle brakes to a stop. When the brake pedal is released the engine seamlessly restarts and the transmission engages.

Dual-zone automatic AC

The Dual Zone automatic climate control constantly adjusts air temperature inside the cabin and creates separate customised environments providing the perfect temperature for all passengers.

Dual-pane sunroof

Enjoy a clear, unobstructed view of the outdoors with the dual-pane sunroof in your Jeep, Compass.

25.9 cm (10.2) customizable instrument cluster

The 25.9 cm digital instrument cluster is customisable, letting you have exactly the information you need, right before your eyes.

Iconic Jeep grille

Gives the Jeep[®] Compass a distinct look and attitude. The legendary Jeep[®] grille stands out prominently, making it hard to miss.

Dual tone roof

The dual tone roof adds oomph to the exterior styling, creating a contemporary look, setting it a class apart.

Atmospheric grey logo and badging

The all-new atmospheric grey badging and logos complement the SUVs colour schemes perfectly, helping you arrive in style, everywhere.

Stylish 45.72 cm R18 diamond cut alloy wheels

The all-season R-18 alloy wheels are built for both, on and off-road challenges. They perfectly complement the luxurious persona of the Jeep, Compass' perfectly styled bumpers and door sill cladding.

Distinctive wheel arches

The distinctive wheel arches impart a unique style to the Jeep, Compass. It's a design element true to all Jeep, SUVs, that makes a bold statement.

Remarkable looks

With body-coloured sill cladding, wheel cladding and bumpers, the SUV is designed to stand out.

4X4 LEGENDARY
CAPABILITY

4X4 LEGENDARY
CAPABILITY

Jeep, 4x4 System & Selec-Terrain

Jeep, Selec-Terrain traction management system lets you choose between auto mud, sand and snow. The auto mode automatically adjusts to the different road conditions.

9-speed automatic gearbox

The class-leading 9-speed automatic gearbox ensures effortless gear shifts and seamless power delivery.

2.0L Multijet II turbo diesel engine

THE BS-VI compliant Multijet II turbo diesel engine puts you in charge of an impressive 170 HP and 350 Nm of torque.

Enhanced Independent suspension with Frequency Selective Damping

Independent suspension delivers superior driving dynamics. The exclusive long-travel telescopic structure, combined with a segment-first Frequency Selective Damping (FSD) system and precise electric power steering makes for the smoothest drive on any terrain.

Chassis strength

The SUV has a rock-solid core: a strong unibody structure engineered with approximately 70% hot-stamped steel.

Hill start assist

This feature holds the vehicle stationary for approximately three seconds on an uphill gradient after the driver's foot is taken off the brake pedal, allowing time to apply the throttle. This adds to safety and comfort during uphill drives.

Select Speed Control

Select Speed Control assists you by intricately managing throttle and braking to maintain a constant steady speed while descending slopes. This feature activates front and rear brakes while going down the slope to limit vehicle speed.

6 Airbags

Full-length side curtain, front and rear-passengers, seat-mounted side for front occupants to help surround you with safety and the confidence to live legendary

Electronic Stability Control (ESC)

A network of safety sensors provide instant aid if they detect the Compass veering off the intended path. ESC coordinates with other safety features, to keep you in your lane.

Auto Hold

The Auto hold comes in handy in bumper-to-bumper traffic. By engaging auto hold, you can avoid having to keep the brake pedal pressed every time you come to a stop.

Zinc-coated Steel Body for Enhanced Corrosion Protection

The steel body is coated with a protective layer of hot-dipped galvanised zinc to prevent corrosive substances from reaching the underlying steel. It protects the steel body by slowly corroding first. However, it takes place after decades of constant exposure to corrosive substances.

Antilock Brake System

Next-generation engineering allows this advanced system to continuously evaluate road conditions for optimal engagement and minimum stopping distance. It includes a Rain brake support system, and all-speed grip control, all working together to help maintain vehicle control during emergency braking.

Rain Brake Support

RBS improves braking performance in wet conditions. It periodically applies a small amount of brake pressure to remove any water build-up on the front brake rotors.

Electronic Roll Mitigation (ERM)

An extension of Electronic Stability Control. Electronic Roll Mitigation uses sensors to anticipate potential risk situations. If things could get rough, ERM takes immediate action to help you maintain control and avoid a roll over.

360-degree Parkview Rear Back-Up Camera with dynamic grid lines

Reverse in and out of your parking spot safely. This system helps bring previously hidden blind spots to your attention, either on the screen or with an audio warning, giving you enough time to react.

Parksense rear park assist system

This system uses rear ultrasonic sensors to notify you of objects in your reversing path on the driver information display.

Electronic Parking Brake

The EPB adapts based on the driver's actions. The automatic drive away release system senses if the vehicle is safe to launch and disengages automatically. It also engages automatically when it senses open doors and unbuckled seatbelts in case the driver exits the vehicle without engaging the parking brake, ensuring safety.

STRIKING LED REFLECTOR HEADLAMPS

NEW SILVER FINISH ALLOY WHEELS

UCONNECT™ WITH 21.33 CM (8.4) TOUCHSCREEN DISPLAY

SPORT

The Sport variant comes power-packed with an exceptional list of premium and modern features. It boasts of R17 alloy wheels and rear parking camera and even an ultra-modern Uconnect™ 21.33 cm (8.4) Infotainment System. It also sports the legendary new design additions and accents, the traditional seven-slot grille and comes with the powerful 170hp Multijet II Diesel Engine mated to a 6-speed manual gearbox. Along with highly functional reverse-parking cameras and sensors.

The Longitude variant of the Jeep, Compass has the option of a 9AT drive type, to make your driving experience smoother than ever. Longitude features new 43.18 cm (R17) Alloy wheels with a silver finish, and a new grille design. When it comes to the interiors, the ambience and comfort is enhanced with steel grey techno leather seats and vinyl grey inserts on door trims and IP. Longitude brings you a Dual Pane Sunroof, wireless charging and a larger Uconnect™ infotainment system - 25.6 cm (10.1) Touchscreen Display.

BEST-IN-CLASS 9-SPEED AUTOMATIC TRANSMISSION

EXPANSIVE DUAL-PANE SUNROOF

UCONNECT™ WITH 25.6 CM (10.1) TOUCHSCREEN DISPLAY

LIMITED

The Limited variant takes the Jeep[®] Compass even further by adding 45.72 cm (18) wheels, an auto dimming rear view mirror and powered seat for the driver. It even features a 17.78 cm (7) digital Instrument Cluster and steel grey leather seats with premium dark wood accents. It also sports a Dual-pane Sunroof and offers unmatched convenience with an automated power lift gate.
