Make Curiosity A Family Trait

Exploration begins at home. Or rather, the driveway. The robust and spacious all-new Škoda Kodiaq is eager to turn every family drive into a curious exploration. The car makes its undomesticated ambitions quickly known, thanks to a striking design that's bolstered by protective details all around like the wheel arch covers and reinforced front and rear bumpers. Along with the stunning full LED headlights, an array of assistance systems is on hand to keep you safe on every adventure. Things remain cosy inside thanks to the ventilated front seats. Even larger families enjoy ample space in the all-new Škoda Kodiaq.

Exterior Design

Wear The Family Name With Pride

Sophistication isn't just a choice. It's a badge worn with pride each time you step inside the all-new Škoda Kodiaq Laurin & Klement. Packed with our finest examples of craftsmanship, design and heritage, the car offers bespoke comfort and a well-mannered ride. Inspired by our uncompromising founding fathers, Laurin and Klement, this exclusive equipment version takes the legacy of our attention to detail and gives it a modern SUV twist.

Laurin & Klement

Elegance Is Your Plus One

Style And Functionality

Beauty and robustness have found common ground in the unique design of the all-new Škoda Kodiaq Laurin & Klement. While elements such as the chrome front grille and window garnish, roof railings in silver, Laurin & Klement badge on the front wings, 18" dual tone alloy wheels and dynamic chassis control emphasise the car's exclusivity, the side cladding features around the vehicle reveal its more adventurous character and off-road capabilities.

Škoda Crystalline Full Led Headlights With Illuminated "Eyelashes"

The newly shaped all-new Škoda Kodiaq is equipped with full LED Headlights with illuminated eyelashes that offer high performance and high energy efficiency, which represents state-of-the-art technology.

Škoda crystalline full LED Tail lights with dynamic turn indicators

The full LED rear lights impress with their stylish appearance and efficient performance. Equipped with dynamic turn indicators, they significantly improve the visibility of your car for other drivers. In addition, when you lock and unlock the car, the welcome effect activates the animation feature.

Interior Design

Upgrade To The Deluxe Suite

When furnishing the all-new Škoda Kodiaq Laurin & Klement, we fine-tuned every detail to be top-class, whether it's your driving comfort or entertaining your fellow passengers. The interior is characterised by high-quality materials and exclusive design features. Perforated leather seats with cooling/heating function, 12-way electrically-adjustable front seats with built-in memory, the new generation of infotainment, LED ambient lighting, 3-zone climatronic A/C with Air Care function – all these features and many more.

Upholstery And Seats

The interior comes with stone beige upholstery in perforated leather with the L&K logo embroidered on the front-seats backrest, which comes with cooling/heating function.

Canton Sound System

Enjoy absolute sound clarity, whether listening to music or the spoken word, on the Canton Sound System with twelve speakers and subwoofer. The total power output is 625 watts.

Decorative Elements

The interior features a lot of decorative elements, such as double stitching on the dashboard, chrome details, and attractive Piano Black décor, which all increase your feeling of comfort.

Door Sill Strips / Welcome Logo

The decorative door sill strips in the front bear the Kodiaq inscription. The LEDs located on the underside of the front doors, projecting the Škoda inscription, illuminate the entry area.

Pedal Covers

The stylish interior is complemented by pedal covers in alloy design. The rubber facets on the pedals prevent your shoes from slipping.

12-way Adjustable Front Seats

The 12-way electrically-adjustable front seats allow multiple degrees of freedom to position your seat exactly the way you like it, and save this setting as a preset for easy access.

Virtual Cockpit

The new 26.03 cm fully programmable Virtual Cockpit displays onboard computer specifications in combination with other information such as navigation. You can choose from five layouts controlled via the View button on the steering wheel.

Comfort And Space

Comfort and Space

Seven-seater Interior

The all-new Škoda Kodiaq offers a third row of seats with foldable backrests for your comfort. All you have to do is remove the luggage space cover and you're good to go. As for the luggage, its storage is taken care of by the double floor space. If you happen to be seated in the third row seats, don't worry, there's ample room given to the bottle and mobile phone holders too.

Headlight Washers

Integrated telescopic headlight washers easily take care of dust and mud.

Advanced Kessy

With the new version of the KESSY (Keyless Entry, Start and Stop System), all doors with request sensors can be used to unlock or lock the car.

Phone Box

The phone box, suitable also for large display devices, creates an amplified signal for your mobile phone and, at the same time, wirelessly charges your device while driving. Two USB-C data ports located above the phone box allow you to easily connect and pair your external devices with the infotainment system.

Comfort At The Back

At the rear part of the Jumbo Box, you will find, among other things, adjustable A/C vents and a 12 V socket.

Rear Armrest

When the middle rear seat is not occupied, the armrest with drink holders can be folded down.

Capacity

The all-new Škoda Kodiaq allows you to create your own space. You can enjoy 270 litres of free space when the car is fully occupied or enjoy 2,005 litres of space with the third and second rows of seats folded down.

Panoramic Sunroof

The electrically-adjustable panoramic sunroof, which allows you to create a large open space above the front seats, will enhance the attractive look of the car. If necessary, it can be covered with an electrically-adjustable blind.

Cooled/heated Front Seats

Both front seats come with cooling and heating feature, allowing you to maintain optimum comfort throughout the ride. Just another fine detail that's inspired by human intuition.

Smart Features

Driver's Storage Box

The driver can utilise a practical tilting storage compartment located directly below the steering wheel.

Umbrella Storage Compartment

An ingenious compartment with original Škoda umbrella is equipped inside the driver's door. It is designed to let water drain away from the car, keeping the interior dry.

Dashboard Storage

Two spacious compartments with tilting lids are located in the dashboard by the front passenger seat. The glovebox is cooled and illuminated.

Power Nap Package

The Power Nap Package at the rear seat enhances comfort and safety at the same time and we provide a blanket that assures sound naps with proper headrest for support.

Virtual Pedal

How do you open or close the luggage compartment when your hands are full? Just swipe your foot underneath and, hey presto, it will open for you automatically. The virtual pedal enables contact-free access.

Connectivity

Take The Online World With You

To be online fully and permanently means not only having access to entertainment and information, but also possible assistance while on the move. MyŠKODA ConnectED is your gateway to a world of unlimited communication possibilities.

Smartlink*

With the SmartLink system (Škoda Connectivity bundle supporting MirrorLink®, Apple CarPlay, and Android Auto), the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with MirrorLink®, Apple CarPlay, or Android Auto.

*Wireless SmartLink works on select handsets

MyŠKODA ConnectED:

Track Your Car

Keep an eye on the car location from your home or office and stay informed when someone is driving your car.

Real-time Speed Tracking

Monitor the real-time driving speed.

Geofence Breach Notification

Add Geofence boundary for your car, get an alert as Geofence area is breached.

Roadside Assistance

Get roadside services like flat tyre repair, battery jump-start, refuelling, towing and a lot more.

SOS (EMERGENCY SMS)

With Location)

Long press the SOS button to send an emergency SMS to your contacts with your location.

Route Tracking / Deviation Alert

Live track the travel route taken by your family and get quick deviation alerts.

Walk To Car

Locate your car quickly in big parking lots or crowded areas.

Device Tampering Alert

Stay alert with prompt notifications on Device Tampering.

Driving Behaviour

Get real-time information on driving behaviour eg: harsh braking, sharp turns, over speeding, rapid acceleration, etc.

Tow Alert

Get an alert in case your car is being towed away.

MyŠKODA ConnectED Online Services

The inbuilt Connectivity mobile online services can be accessed at any time via the MyŠKODA ConnectED app. The app displays a clearly laid out Vehicle Health Report on the smartphone. The system automatically stores important data every time the ignition is switched off. Remote vehicle access is also available, which allows owners to retrieve vehicle information and driving data, including the car's parking location for instance.

Safety

Safety Matters

This Vehicle Comes Equipped With 9 Airbags As A Standard Feature. In Extreme Situations, Where The Driver Cannot Actively Influence The Outcome, The Car's Passive Safety Elements Take Over.

Front Driver And Passenger Airbags

While the driver airbag is enclosed in the steering wheel, the passenger airbag is located in the dashboard.

Head Airbags

Upon activation, head airbags create a wall protecting the front and rear occupants against head injury.

Front And Rear Side Airbags
These airbags (shown together with the activated head airbag) protect the pelvis and chest of the driver and other passengers in the event of a side collision.

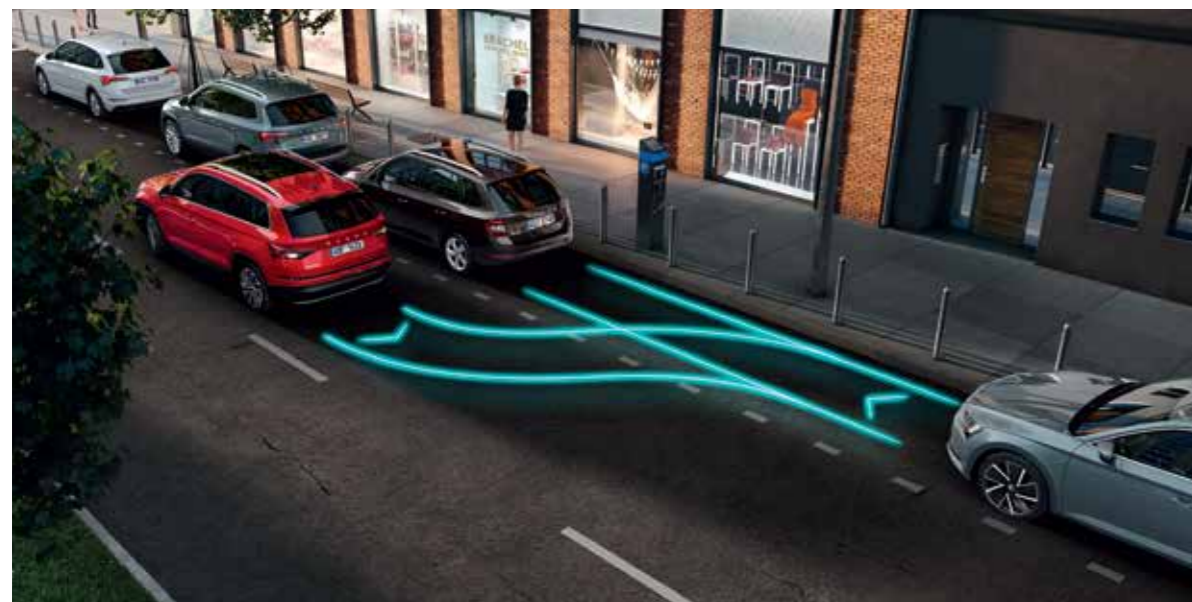

Knee Airbag

This airbag, which is located under the steering wheel column, protects the driver's knees and shins.

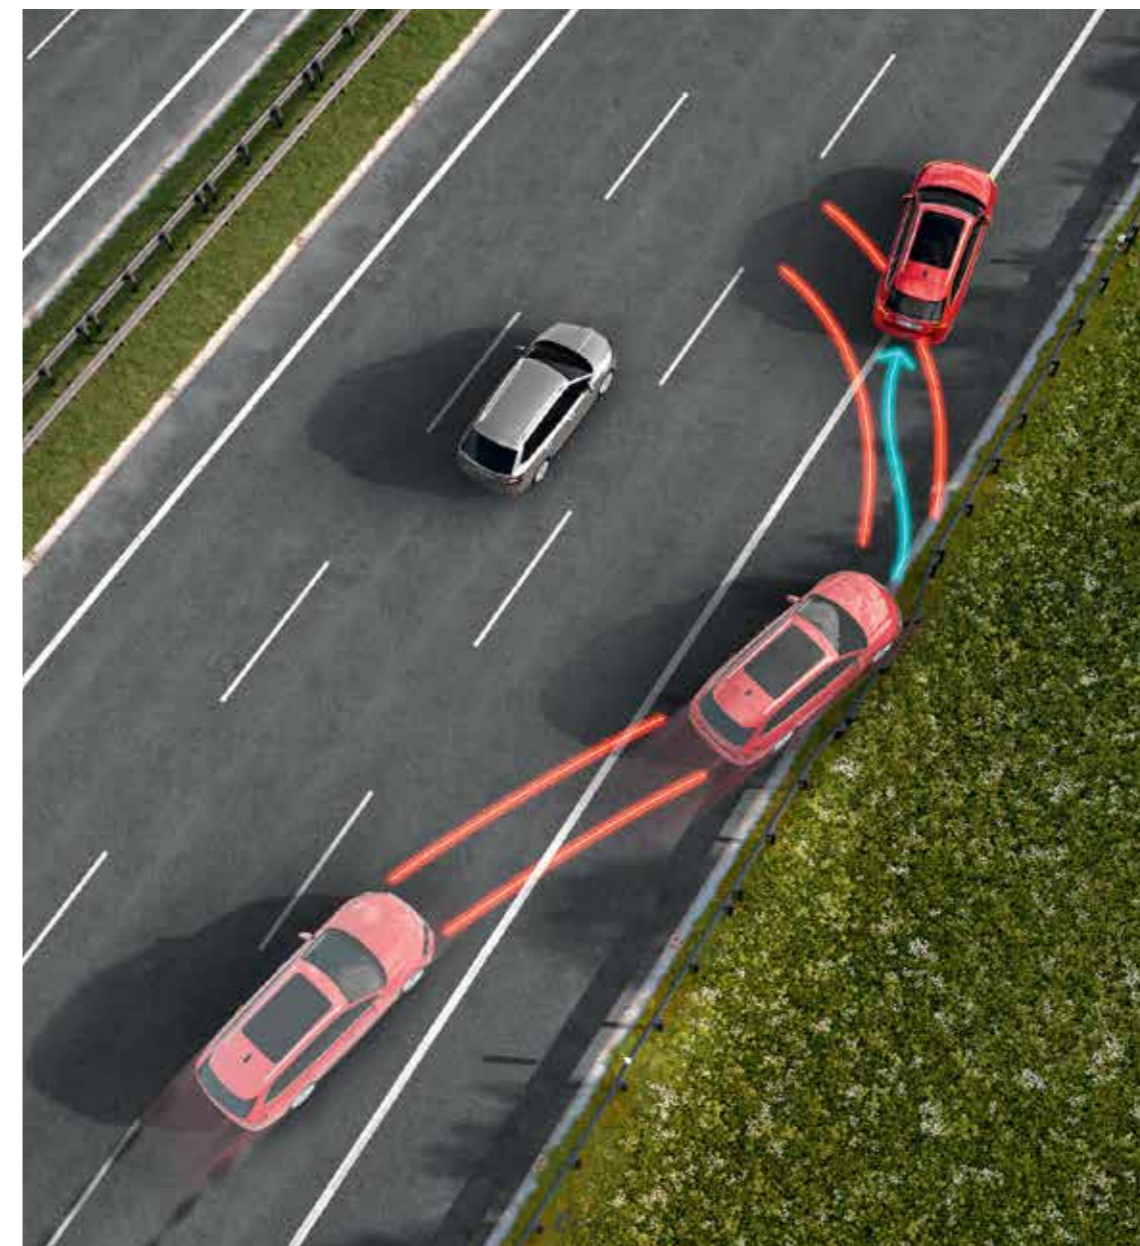

360-degree camera

The 360-degree view camera combines the perspectives of several cameras placed in the front, sides and rear of the vehicle and helps you maneuver the vehicle effectively into an appropriate parking space. Since it shows nearby obstacles (like vehicles or road dividers etc) it helps you drive and park smoothly, without any untoward incident.

Park Assist

The system automatically selects an appropriate parking space in a row of parallel or perpendicularly parked vehicles. The updated Park Assist function now means that it can just be used for part of the parking manoeuvre. For example, you can select a parking space yourself and attempt to park your car some of the way, but for the more difficult part of the parking manoeuvre, simply activate Park Assist, which takes control of the steering wheel.

Multi-collision Brake

In case of an accident, the Multi-Collision Brake starts braking to prevent further uncontrolled movement of the vehicle, thus reducing the likelihood of further collisions.

Traction Control System (TCS)

TCS/ASR helps to stabilise the vehicle when accelerating or driving on low-grip roads. TCS/ASR reduces the drive power transmitted to the wheels when the wheels spin.

Anti-lock Braking System (ABS)

ABS helps maintain control of the vehicle during emergency braking. An ABS intervention is noticeable by pulsating movements of the brake pedal.

Roll Over Protection

On identifying a rollover threat, the ESC brakes particular wheels as prevention.

Motor Slip Regulation (MSR)

MSR helps to maintain control of the vehicle in the event of a sudden reduction in speed. If wheels of the driven axle lock, MSR increases the engine speed. This reduces the braking effect of the engine and the wheels can rotate freely again.

Electronic Differential Locking System

EDS helps to stabilise the vehicle when driving on road surfaces with different grip under the individual wheels. XDS+ helps to keep the vehicle on the turn by effectively braking the wheels on the inner side of the turn. XDS is functional up to 30km/hr.

Performance

Engine

Experience pure balance and untethered power with the 2.0 TSI/ 140 kW / 190PS petrol engine, built to traverse any and every road.

Force Of Nature

Every family has a different story: frequent trips to the mountains, an urban adventure, or off-road exploration. Whatever the story, we have the right alternative for every family. And in every case, we offer dynamism combined with excellent fuel efficiency.

Dynamic Chassis Control

The core element of the system is a dual-shell, gas-liquid shock absorber with adaptable damping characteristics. Each shock absorber comes with an electronic valve to control the flow of oil and thus also the damping characteristics. Another indispensable component of the adaptive chassis is its electronic control unit that continuously monitors and evaluates various input parameters to choose optimum damping characteristics for each shock absorber. When the adjustment control system fails, the shock absorber uses preset characteristics that are close to those of the Normal mode for the conventional shock absorber. In the event of failure of one of the shock absorbers the adjustment control of the remaining shock absorber units is deactivated.

4x4

The 4x4 drive is provided by an inter-axle electronically-controlled multi-plate clutch. The coupling of the rear axle is automatic, so under normal conditions the car can utilise the advantages of the front-wheel drive, and under extreme conditions the excellent traction of 4x4 drive.

Drive Mode Select

The Driving Mode Select includes Eco, Comfort, Normal, Sport, Individual & Snow Mode, which ensures good handling even on low-grip surfaces.

Off-road Button

The dedicated off-road button shows additional information like compass, inclination and oil temperature.

Sportline

Work From Home, Play Anywhere

Your lifestyle may evolve, but sporty style is here to stay. The all-new Škoda Kodiaq Sportline makes a convincing case for it. With a dynamic character and do-it-all attitude, this car can turn any road into your playground.

Style And Functionality

The exterior of the all-new Škoda Kodiaq Sportline features stylish elements including front grille frame in glossy black, exterior side-view mirror caps and roof railings in black, SPORTLINE badge on the front wings, black inscriptions (such as ŠKODA, KODIAQ and 4x4), and decorative exhaust pipe end pieces in a chrome design. The car's charisma is emphasised by 18" askella anthracite alloy wheels.

Sporty Is In The Details

Every detail of the all-new Škoda Kodiaq Sportline reflects its energetic attitude. The interior is characterised by high-quality materials and exclusive features in a sporty style including the Sportline logo on the steering wheel.

Upholstery And Seats

The car always features front sports seats, which underlines the dynamic interior design. The black perforated suede upholstery with silver stitching comes with integrated headrests and expanded shoulder support. The cabin also boasts a black ceiling.

Sports Steering Wheel

The 3 spoke multifunction leather wrapped flat bottom sports steering wheel with silver stitching and SPORTLINE logo.
